Teams

- The Teams tab displays course teams, lists members, and gives brief descriptions of their assignments.
- Students will see only their team members and assignment under the Teams tab.
- Instructors will see all teams and have access to presentations, forums, and chats from all teams.
- Each Team is identified by a unique color.
- Use the Team Description field to provide assignments and instructions.
- Team members have access to private forums and chat areas.
- Teams can post information to share with their instructor and classmates from the Teams tab.
- Team members may be chosen by the instructor or students; however, the instructor must create teams within WebStudy for students to use this feature.

Team Properties and Options

**Team Name:** (required) Enter a unique name for the group.

**Description:** (optional) Enter the description, assignment, or other information for team members.

**Max points for grading:** (required) Enter the number of points work will be worth or zero if work will not be graded.

**Color:** (required) Select a unique color for the team.

**Students:** (required) Select team members. To select multiple students, hold down the control (CTRL) key while clicking items.
